CC2

Coin Counter/Packager

Compact, portable counter for single-denomination verification, counting, packaging

The CC2 is a fast, compact, single-denomination coin counter. The CC2 can be used to verify known coin amounts, count pre-sorted coin or package fixed batches of coin into paper tubes (US/Canada) or bags.

Glory Global Solutions is a World Expert in cash management, delivering technology and solutions that provide security, productivity and innovation to our customers. These solutions are supported by the technical expertise of GLORY Group of Japan, the pioneer in development and manufacture of money handling machines across the financial, retail, vending machine, amusement and gaming industries for nearly 100 years.

Across the world, Glory Global Solutions is trusted by thousands of organisations to ensure their cash is managed securely and efficiently whilst delivering the ultimate in productivity. 2,500 professionals, including over 1,300 service and support staff and 350 business partners cover over 128 countries delivering these solutions – wherever money moves.

Replaces hand counting

The CC2 provides a cost-effective solution to laborious hand counting for retail, vending, arcades or any business with an abundance of sorted coin requiring verification and packaging.

Compact size, easily portable

The small footprint of the CC2 utilises minimal counter space and is easily stored away when not in use. A carry handle facilitates transport when collecting coins from various locations. The extended coin tray, with 3100-coin capacity, closes fully during storage or transport, protecting keypad, gauges and coin hopper.

Fast, efficient, flexible

At an average speed of 1800cpm, the CC2 places counted coins into bags using preset or operator-selected batch stops up to 999,999. Batch stops can be customised for up to nine different denominations. Smaller coins than those being processed are automatically off-sorted to a reject cup or bag attachment.

CC2 Technical Information

Processing speed	Up to 1800 coins per minute
Coin size range	Diameter: 14.0 to 34.0 mm Thickness: 0.8 to 3.8 mm
Capacity	Coin Hopper = 1500 Hinged Coin Tray = 3100
Batch stops	Pre-sets and programmable to 999,999
Display	7 segment LED
Power supply	110-220V AC, 50/60 Hz
