GLORY

Mach™ 9
Coin sorter/counter

High speed coin processing for high volume applications with optional WAVE coin authentication

The Mach 9 is a high speed coin sorter applicable to high volume processing centres where throughput and reliability is paramount.

Mach 9 is the perfect solution for financial processing centres, vending and transportation companies and gaming houses. Highly configurable, Mach 9 can track and consolidate management information eliminating the need for manual reporting. Optional coin authentication provides another layer of security and precise count assurance.

Glory Global Solutions is a World Expert in cash management, delivering technology and solutions that provide security, productivity and innovation to our customers. These solutions are supported by the technical expertise of GLORY Group of Japan, the pioneer in development and manufacture of money handling machines across the financial, retail, vending machine, amusement and gaming industries for nearly 100 years.

Across the world, Glory Global Solutions is trusted by thousands of organisations to ensure their cash is managed securely and efficiently whilst delivering the ultimate in productivity. 2,500 professionals, including over 1,300 service and support staff and 350 business partners cover over 128 countries delivering these solutions – wherever money moves.

Unmatched throughput

Throughput is the truest measure of productivity and can only be achieved when a coin counter runs uninterrupted. The Mach 9's patented sorting system ensures trouble free operation and unrivalled performance.

Ease of use

An easy to read LCD graphic display provides clear function status and operational messages. Selectable bag stops, batch, sub, grand totals are easily accessed via the direct keypad. Full travel keys enable easy and quick data entry. Patented quick release bag attachments make it easier and faster for operators to remove and replace bags as they fill.

Thoughtful design

The Mach 9 was designed specifically for high volume applications. Its' ergonomic design is both functional and aesthetically pleasing. Keypad and printer are easy to reach yet out of the way of heavy coin bags. There's a place to store pens, pencils, and clips and even a dedicated space to rest coin bags.

Coin Detection

With the addition of patented WAVE coin authentication option, the Mach 9 becomes the ideal machine to assist in the rejection of intrusive or counterfeit coins. Coin detection increases accountability while maintaining the highest degree of accuracy.

Efficient

The standard Management Information Control System (MICS) provides three levels of memory and allows other media – such as cheques, vouchers or bulk coin to be entered via keypad. Notes can be entered manually or automatically transferred if note counter is interfaced, ensuring a comprehensive audit trail.

Mach 9 Technical Information

Processing speed	Up to 4,500 coins per minute WAVE: Up to 3,000 coins per minute
Coin size range	Diameter: 15.0 to 37.7 mm Thickness: 1.0 to 3.0 mm Differential: 0.5 mm minimum
Tilting inspection pan capacity	Up to 5,000 coins
Coin feed (hopper) capacity	Up to 10,000 coins
Sorting capability	Up to 9 different denominations WAVE: 8 + 1 reject
Exact bag stops	Standard on Mach 9 WAVE
Display	LCD graphic backlit
Connectivity	(2) RS232, (1) USB-B mini, (1) RJ11 printer
Power supply	90 - 264V AC, 50/60 Hz
Power consumption	1512W
Dimensions (H x W x D)	1041 x 685 x 718 mm (without printer)
Weight	90 kg
Manufacturing standards and approvals	ISO9001, CE, CUL
Security features	Battery back up in the event of power failure Lockout security to protect operating information
Options	Tokens, non-round coin, etc subject to review Thermal printer Remote display Security doors Inspection pan magnet WAVE Coin Authentication

Glory Technology

Unique patented technology sets new industry standards

WAVE™ Coin Authenticaion Technology	Provides highest accuracy coin counting and authentication technology

1041mm

718mm without printer
774mm with printer

685mm
